When you want a piece of furniture for your home, it's best to select well-made and stylish designs. It will prove more satisfactory to you in its use and to us as your furniture dealer.

A. H. GREGORY

Next Door Farmers National Bank

WHO IS THE MOST SUCCESSFUL FARMER IN THIS COMMUNITY?

HOW DOES HE DO IT? READ ON AND LEARN

He doesn't do it by using the ancient methods of our fathers and grandfathers. Those methods are too slow for modern farming. There is too much manual labor for a small income.

Successful farming today is accomplished through the use of modern machinery, modern tools and scientific methods of cultivation.

We have the best tools—all modern and of the best—and we will be glad to show them to you and how to use them to the best advantage.

IMPORTANT NEWS QUICKLY TOLD

Happenings In Various Sections Of Old Virginia

NEWS ITEMS WORTH READING

Fredericksburg.—Clerk of Court J. Willard Adams is besieged by sportsmen of this city and section for hunting licenses. Both county and State licenses are in demand. According to authorities, game will be unusually plentiful this season.

Fredericksburg.—James Somerville, eldest son of S. W. Somerville, of Rapidan, Culpeper county, died in Tucson, Arizona, a few days ago after a long illness. His wife and brother were at the bedside. The body will be brought to Virginia to the home of his father for interment.

Petersburg.—Petersburg's Community Chest campaign closed with the workers reporting a total subscription of approximately $60,000. While the goal was set for $70,000, many think that the amount given considering present business conditions was very good.

Chase City.—The Tobacco Growers' Co-Operative Association opened its warehouses here with a large crowd present. They received approximately 10,900 pounds, and while the majority of the tobacco received was the first pluggings, the growers seemed entirely satisfied with their advances.

Covington.—Charles Hoylman, who was struck on the head by the horn of a cow, near Lick Run and taken to the Chesapeake and Ohio Hospital, Clifton Forge, died in that institution, never regaining consciousness. Little hope was held by the doctors for his recovery from the time he was admitted to the hospital.

Lexington.—William C. Fix, aged 56 years, was killed in an automobile wreck six miles north of Lexington. He was returning from Charlottesville. On entering "Wolt Hollow," his car ran over an embankment, killing him instantly. Four companions with him escaped with slight injuries. Mr. Fix was driving the car.

Tappahannock.—Judge J. W. Chinn has sustained the Virginia Highway Commission in an injunction suit relating to the location of a State road in Accomac county. The road in question is located near Onancock. The suit was a protest against the building of the highway along the road instead of along an old State route.

Fredericksburg.—The last rail has been driven in the new State Highway bridge spanning the Rappahannock River at Falmouth; the footing having been completed Friday afternoon. The structure will not be in operation for traffic for a few weeks, however, until a fill and a portion of the road on the Spotsylvania end are finished.

Fredericksburg.—N. W. Sheffernan, of New York, president of the Peerless Manufacturing Company, was in Fredericksburg in connection with opening the new factory for the manufacture of mechanical pencils, surgical appliances and other instruments. The building having been completed, this important industry will be ready for operation in a few days.

Norfolk.—The American steamer Barbara, formerly known as the Seneca, has been purchased by Dutch interests, it was ascertained here, and will be towed across the Atlantic Ocean to be broken up for junk upon her arrival in Holland. The vessel was built in Cleveland in 1899, and before the war was in service on the Great Lakes. She is a steel vessel. The Barbara is now at this port.

Lynchburg.—The revenues of the Lynchburg postoffice during the first quarter of the government's fiscal year, which ended September 30, showed an increase of $2,484.24 over the same period in 1922. The figures just given out are $37,399.91 for this year, as compared with $34,956.67 in 1922. The same quarter in 1921 showed a revenue of $78,969.75; 1920, $72,486.76.

Harrisonburg.—A closed season on hunting of ring-necked pheasants for 1923 and 1924 was ordered by the Rockingham Board of Supervisors upon the petition of sportsmen. Many farms are rearing pheasants from the State Game Department, and the two-year closed season will make the game plentiful, it is believed. This was the only change made in the hunting regulations. The season opens on November 15 and closes on December 15 for partridges and turkeys and on January 1 for rabbits.

Burkeville.—The Burkeville cooperative tobacco market opened with J. S. Agnew in charge of the opening sale. Nearly 8,000 pounds were delivered at an average of 1414 cents a pound. Many farmers were present and auctioneers predict good sales prices given by the co-ops.

Ransons.—Tobacco in this section has all been housed. Considerable good grade and farmers are hopeful of fair returns, although the crop acreage was smaller than the year before. Little wildfire appeared in this immediate section this season.

Fredericksburg. — The Thirteenth Virginia Chapter, United Daughters of the Confederacy, of Orange, at the first fall meeting elected officers as follows: Mrs. Anthony Barclay Talliaferro, president; Mrs. William H. Lyne, honorary president; Mrs. J. Wesley Johnson, vice-president; Mrs. Watson Daley, treasurer; Miss Annie H. Wallace, recording secretary; Mrs. George Landon, Browning, corresponding secretary.

Newport News.—A bowl—a fresh

Williamsburg.—Williamsburg is the latest idea in road building, promoted at a meeting of the Chamber of Commerce here. The plan includes the co-operation of historical associations of Virginia, as well as other States, the idea being to erect suitable monuments along the road in memory of certain heroes, and name the highway the "Avenue of the Immortals."

Winchester.—While Graham Robinson, negro, is fighting for his life in a hospital here with half a dozen long and deep knife cuts in his breast and side, one of which penetrated the lungs, other negroes are combing thickets and woods eight miles south of here for Joe Robinson, also colored, but not a relative, charged with inflicting the injuries which are expected to prove fatal. The men are said to have quarreled over a phonograph record.

Lynchburg.—Game wardens representing the Blue Ridge sections of the State in conference here agreed to urge that the next State Legislature take the contraction of the game and fish laws in the counties from the board of supervisors and lodge this authority with the State Department of Game and Inland Fisheries. More uniformity in the enforcement of the State law, was advanced as a reason for this desired change.

Lynchburg.—J. H. Fahrenbach, supervisor in charge of the Natural Bridge-national forest, has received from the local headquarters that 50,000 telephone poles have been sold from the reserve, in addition to a sale of 20,000 a short time ago. These poles are being sold in order to cut out chestnut trees, now being badly attacked by the blight. The poles are to be delivered at plants of the Western Electric Company at Arcadia and Natural Bridge.

Winchester. — James B. Russell, president of the Union Bank and a Confederate veteran, 82 years old, grappled with a masked holdup man in the doorway of his home in an exclusive residential section and dealt the thug a blow on the chin that sent him sprawling to the pavement. Screams of women in the house, who heard the souths frightened the intruder, who made his escape in the darkness with Mr. Russell and several neighbors in hot pursuit.

Winchester.—Business has been almost blocked at Stephens City, a Frederick county town eight miles south of here, by the appearance of an army of skunks or polecats. Where they came from in such large numbers no one seems to know. All the people of Stephens City know is that the polecats are in "their midst," and how to get rid of the invaders is a problem that is harrassing members of the Town Council, the police force, the county board of health and school trustees. The presence of the pests has completely disrupted business and the schools will have to be closed.

Lynchburg.—Two carload and fifty trunks came recently to Lynchburg with 756 girls to Randolph-Macon Woman's College, which means on an average of 150 pounds, that 127,500 pounds of trunks and their contents were moved into the college establishment. Fixing the average weight of the girls at 120 pounds, the student body weighs, in round figures, forty-two tons, and this means, if half of the weight of the trunks was wearing apparel, that for every pound of girl in the college there is half a pound of clothing. Lynchburg and its vicinity now have approximately 2,500 students at work in the four white schools and one negro school here.

Hopewell.—"Baby" Marks, the 17-months-old baby boy of Mr. and Mrs. Marks, of this city, who lives at 1 Petersburg to the hospital with a safety pin lodged in his throat. Physicians worked for six hours over the young star, but it appeared to be almost impossible to extricate the pin when it was decided to operate by cutting the boy's throat and finding the deadly pin. It was not open when swallowed. The parents of the child were frightened when they discovered he had swallowed the pin, and did not know whether it was open or closed, but did not waste time in getting him to a physician. Several worked on him for some time and finally took him to the hospital. Dr. C. S. Dodd operated and removed the pin. Today the youngster is in the best of spirits and apparently is suffering but little pain. The pin lodged in his windpipe.

Fredericksburg.—C. W. Reynolds raised this year on his Culpeper farm an ear corn three inches long, and composed of 1,000 grains. In addition to these 1,000 grains from a single ear, the same stalk had also a short ear, about one-half the length of the large one.

Martinsville.—The co-operative tobacco market opened here under very favorable circumstances. The advances were larger than last year. So the good crowd of farmers in attendance were highly pleased with the grading and advances.

English Locomotives Light.

The largest locomotives in the world are those used on American railways. None of these have a weight, including tender, of 400 tons, while the heaviest British locomotive yet built, is working order, only 140 tons.

Dark Beaver Fur Most Valuable.

The darkest and heaviest furs obtainable from beaver fur is found along the south shore of Lake Superior. It is worth several times as much as the lighter varieties from the Western and Northern waters.

Powerful Odor of Musk.

In the case of musk, as it comes to the refiner, the odor is so pungent, an amazement that those who have to examine the tonic to which it comes wear masks covering the nose and mouth.

RAPID GROWTH HAS COME TO BAPTISTS

76 MILLION CAMPAIGN HAS LENT STRENGTH TO EVERY DEPARTMENT OF WORK

RESULTS IN SOUTH NOTED

Home and State Missions, Schools, Orphanages, Hospitals and Relief Report Marked Advances Under Forward Movement.

DR. B. D. GRAY,
arn Baptist Convention
Secretary Home Mission Board

Suggesting the growth which the Baptist 75 Million Campaign has brought to the general work of Southern Baptists, it is reported by the general headquarters of the movement that during the four years that have intervened since the Campaign was inaugurated in 1919, the denomination has gained 87 district associations, 851 active ministers, 3,065 local churches, 3,287 Sunday schools with 469,233 pupils, 5,888 Young People's Unions with 323,917 members, and 7,094 Woman's Missionary Union organizations, and baptized 762,850 persons. At the same time the churches have given $58,776,937 more to missions, Christian education and benevolences than they did during the corresponding period prior to the Campaign, and have increased their investment in local church property by $45,465,118.

The larger resources made possible foreign and benevolences through the channels of the Campaign have been responsible for great advances in every form of denominational work, it is declared.

Complete Church Building Fund

Among the outstanding achievements of the Home Mission Board, operating throughout the territory of the Southern Baptist Convention, are noted the completion of its million dollar church building loan fund, the baptism of 173,602 persons, reception into the churches of 277,285 persons, enlistment of 11,773 young people in the dedication of their lives to some definite form of Christian service, building or improvement of 1,572 church houses, and organization of 936 Baptist churches and 2,898 new Sunday schools.

Practically twice the state mission results have been accomplished in many of the states since the Campaign began as were had for any corresponding period of time prior to that movement.

Southern Baptists own 118 Baptist schools, colleges and seminaries, where nearly 40,000 young people are studying to fit themselves for larger usefulness. The number of students has been greatly increased through the Campaign making possible the larger equipment of the schools, and the investment which that movement has made possible in the schools is equal to about 40 per cent of their total value at the time the Campaign was inaugurated.

4,000 Orphans Cared For

Nearly 4,000 orphan boys and girls are cared for in the 19 Baptist orphanages of the South. Two new orphanages have been provided by the Campaign and practically all of the older ones have been given better equipment by this movement. The equipment is not large enough yet, as 2,000 boys and girls had to be turned away last year because the institutions had no more room.

When the Campaign was launched Southern Baptists had only 13 hospitals. Today that number has been increased to 21. Last year over 47,000 patients were treated in these hospitals, a large number of them being charity patients who could not have had an opportunity to get well except through some such assistance.

The Relief and Annuity Board, which aged ministers, is now doing more than 925 beneficiaries and has expended in direct relief since the Campaign began the sum of $414,884.65.

It will require $3,000,000 additional cash to complete the Campaign by the end of the period in 1924, and every effort is being made to enlist all Southern Baptists in having a share in this task.

Crows Will Pick Up Human Speech.

Nearly all the true crows, as well as many of their near relatives, will pick up more or less of human speech in captivity; and it is sometimes hard to believe that the utterances with which they invest their remarks, their manner and intonation, are altogether accidental.

Silk Shirts Included.

Americans spend 15.6 per cent of their income for clothing.

The painter has been "made the goat" long enough

It is about time that property owners realized that the *painter* isn't to blame when a cheap painting job does not last. It isn't from choice that the painter uses cheap paint and varnish. But he has to use them if the owner insists on looking for *price* instead of *quality*.

Let the painter figure on good paint and varnish. They cost a little more by the gallon but very little more *by the job*. Labor is the big item and that's the same with a cheap paint as with good paint.

Good, honest paint and varnish like BREINIG BROTHERS' are economy—whether they are for a porch chair or for your entire house. They are made to give *lasting* protection.

LADY WAS IN A BAD FIX FROM NERVOUS INDIGESTION

Biloxi, Miss.—"I had, for a year or more, nervous indigestion, or some form of stomach trouble," says Mrs. Alonzo Ford, 1117 Clay Street, this city. "The water I drank at that time seemed to constipate me. I would suffer until I got so nervous I wanted to get down on the floor and roll. I felt like I could tear my clothes.

"Every night, and night after night, I had to take something for a laxative, and it had to be kept up nightly. My side would pain. I looked awful. My skin was sallow and seemed spotted. I would look at my hands and arms, and the flesh looked lifeless.

"I happened to get a Birthday Almanac, so I told my husband I would try the Black-Draught, which I did. I took a few big doses. I felt much better. My liver acted well. I made a good, warm tea and drank it that way. Soon I found that nervous, fight feeling was going, as was the pain in my side. I found I did not have to take it every night. Soon, after a few weeks, I could leave it off for a few days, and I did not suffer with constipation. . . I gained flesh. I have a good color, and believe it was a stubborn liver, and that Black-Draught did the work.

"I went to my mother's (Mrs. Deeters) one day, and she wasn't well at all. . . I told her we'd try Black-Draught. She did, and now she keeps it to take after eating. It certainly helped her, and we believe will be without it in our homes. It is so simple, and the dose can be regulated as the case may be. We use small doses after meals for indigestion, and larger doses for headache or bad liver."

Thedford's Black-Draught liver medicine is for sale everywhere. 146

Ford New Prices

Effective October 2, the Ford Motor Company announces the following reduced prices on all Ford Cars and Trucks:

Runabout	$265.00
Touring Car	295.00
Coupe	525.00
Four-Door Sedan	685.00
Chassis	230.00
Truck Chassis	370.00

All Prices F. O. B. Detroit

These are the lowest prices in all Ford history. With the recent changes and refinements that have been made in every body type, Ford Cars now offer new values in motor transportation. Especially is this true of the new Four-door Sedan with its streamline body and many added conveniences.

The Fordson Tractor

The price of the Fordson Tractor has been increased $25.00, making the present price $420.00 F. O. B. Detroit.

You can take advantage of these new prices through the Ford Weekly Purchase Plan

Appomattox Motor Company
Appomattox, Virginia.
